When these misappropriation took place, whether there was elected body of directors or the administration was under the control of Government officials ?

†SRI V. M. KUSHNUR :—That information is not available at present. I have give the list of societies and also stated what action has been taken etc., I have also given the period. Since it consists number of societies, I don't have the information.

SRI H. GANGADHARAN :—Whether these accused are all Govt. officials or non-officials.

SRI V. M. KUSHNUR :—There may be non-officials also; I can't rule it out.

SRI H. GANGADHARAN :—Every year, the Asst. Registrar or some other departmental officers are inspecting these societies. Inspite of it, these misappropriations continuously taken place every year What action Government has taken in this regard?

SRI V. M. KUSHNUR :—Misappropriations could be found out only after the audit; but not after inspection. If the auditor says that certain persons are responsible, then only we can take proper action.

SRI H. GANGADHARAN :—The audit system itself is defective. Some societies are audited after 5-10 years. Because of this wrong system, lot of money has been misappropriated throughout the State. Therefore, I would like to know whether there are any proposals to expedite this matter and see that the accounts of these societies are audited every year?

SRI V. M. KUSHNUR :—I have already stated that the audit has been bifurcated now and it is not with the Registrar. We have asked the Auditor General to give a Special Auditor. For the last three years I am going into each division to find out the problem. This year, the audit has been improved. I will explain the details during the course of my speech on demands for grants. In all working societies hundred percent audit should be there. If the audit is done after 5-6 years, we will not be able to find the person and the exact amount also. So, we will see that the audit takes place every year.

SRI H. GANGADHARAN :—Here, it is said that prosecution had taken place. But in one Mile Society, the case has been withdrawn and the money has not been recovered. I don't know the reason for it. When other cases are being investigated why only this case has to be withdrawn? Whether there is any proposal to create a separate cell for investigation of these misappropriation cases and take immediate action; otherwise this misappropriation cannot be prevented and these co-operative societies have become a source of income to some people.

SRI V. M. KUSHNUR :—In the book-let I have given, I have stated that we have created a special cell for this purpose. Whenever complaints are made, we are asking officers to take action and investigate. We have already taken action in nearly 500 cases. We may require some more time to set right these things.
